The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The project would have an estimated average annual generation of 11.0 gigawatt-hours (GWh), and operate run-of-river utilizing surplus water from the Kentucky River Lock and Dam No. 14, as directed by the Corps.
